2013 POPULATION
646,449

MEDIAN HOUSEHOLD INCOME
\$66,583

SEX BY AGE

EDUCATIONAL ATTAINMENT

RACE & ORIGIN

POVERTY

13.9%

for all families whose income in the past 12 months is below the poverty level

UNEMPLOYMENT

7.1%

for the population 16 years & over in the labor force

HOUSING UNITS

300,247

houses, apartments, mobile homes, group of rooms or single rooms that serve as separate living quarters

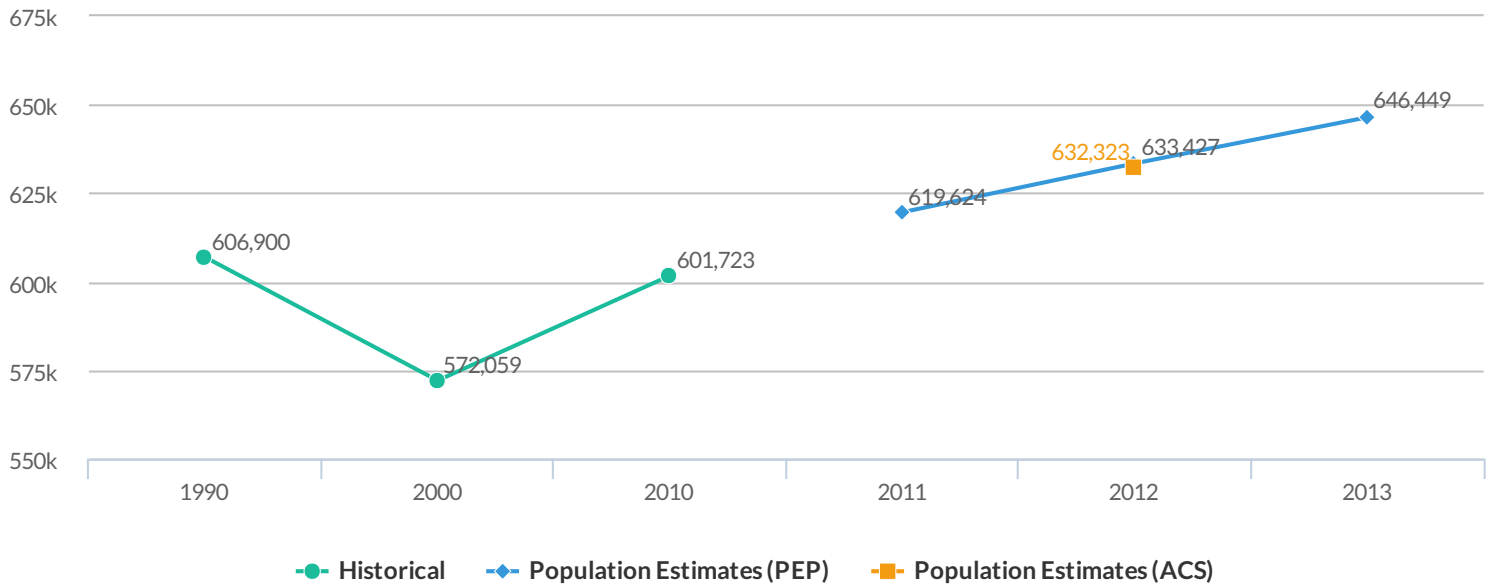

HOUSEHOLDS

266,662

all the people who occupy a housing unit

Source: United States Census Bureau. The US Census Bureau's 2013 Population Estimates dataset has the most current population estimate data. The US Census Bureau's 2012 American Community Survey dataset has the most current demographic data (i.e. race).

POPULATION

Population Estimates (ACS)

	#	% Change
2012 1-yr estimate	632,323	-

HOUSEHOLDS

Average Household Size	2.22 persons
Average Family Size	3.25 persons

A household includes all the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) A family household consists of a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. For more information, visit the American Community Survey Data & Documentation page: http://www.census.gov/acs/www/data_documentation/documentation_main/.

Household Types

	#	%
Family households (families)	112,493	42.2%
With own children under 18 years	46,568	17.5%
Married-couple family	62,149	23.3%
With own children under 18 years	23,187	8.7%
Male householder, no wife present	9,378	3.5%
With own children under 18 years	3,330	1.2%
Female householder, no husband present	40,966	15.4%
With own children under 18 years	20,051	7.5%
Nonfamily households	154,169	57.8%
Householder living alone	122,079	45.8%
65 years and over	26,679	10.0%
Total households	266,662	-

A family household consists of a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. A nonfamily household is a householder living alone or with nonrelatives only. Same-sex couple households with no relatives of the householder present are tabulated in nonfamily households. For more information, visit the American Community Survey Data & Documentation page: http://www.census.gov/acs/www/data_documentation/documentation_main/.

Notes

American Community Survey data are estimates, not counts.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The ACS questions on Hispanic origin and race were revised in 2008 to make them consistent with the Census 2010 question wording. Any changes in estimates for 2008 and beyond may be due to demographic changes, as well as factors including questionnaire changes, differences in ACS population controls, and methodological differences in the population estimates, and therefore should be used with caution. For a summary of questionnaire changes see http://www.census.gov/acs/www/methodology/questionnaire_changes/. For more information about changes in the estimates see <http://www.census.gov/population/www/socdemo/hispanic/reports.html>.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)
